Human Factors–Contents to Volume 17

Editor's Preface, *Harry L. Snyder* 1
Preface To Special Issue, *William B. Askren* 2
Human Resources Data in System Design Trade Studies, *William B. Askren and Larry M. Lintz* 4
Impact of Avionic Design Characteristics on Technical Training Requirements and Job Design, *Kenneth W. Potempa, Larry M. Lintz, and Richard S. Luckew* 13
Human Performance and Personnel Resource Data Store Design Guidelines, *Robert E. Blanchard* 25
A Human Resources Planning Model, *Vincent R. Ceriello and Richard B. Frantzreb* 35
A Cost Model for Evaluating Alternative Manpower Input Strategies, *Thomas C. Davis and Patrick R. Pinto* 42
Technological Change and Manpower Resources: A Systems Perspective, *Kenyon B. DeGreene* 52
Transfer Effectiveness of a Driving Simulator, *Marvin L. Baron and Robert C. Williges* ... 71
The Effect of Local Target Surround and Whole Background Constraint on Visual Search Times, *Brian Brown and Timothy H. Monk* 81
The Effect of Scapular Restriction on Manual Work Space, *Carolyn K. Rozier and Kenneth K. Faulkner* 89
Relationships of Fatigue and Motion Sickness to Vestibulo-Ocular Responses to Coriolis Stimulation, *Patrick J. Dowd, Edwin W. Moore, and Robert L. Cramer* 98
Research Note: The Interactions Among Stress, Vigilance, and Task Complexity, *Robert S. Kennedy and Xenia B. Coulter* 106
The Authors, ... 110
Preface, *Douglas H. Harris* 117
Human Factors in Urban Transportation Systems, *Laverne L. Hoag and S. Keith Adams* .119
Experimental System for the Control of Surgically Induced Infections, *Richard A. Skidmore* 132
The Assessment of Water Quality, *Douglas H. Harris* 139
Human Factors Analysis of the Diesel-Electric Locomotive Cab, *Frederick C. Gamst* 149
The Application of Link Analysis to Police Intelligence, *Walter R. Harper and Douglas H. Harris* 157
Sex Differences in Driving Performance, *Roger E. Hagen* 165
The Weighing of Testimony in Judicial Proceedings from Sources Having Reduced Credibility, *David A. Schum* 172
The Comprehensibility of Printed Instructions and the Flowchart Alternative, *Richard Kammann* 183
Quantitative Interpretation of Two Qualitative Scales Used to Rate Military Intelligence, *Michael G. Samet* 192
Short-Type: A Behavioral Analysis of Typing and Text Entry, *James W. Schoonard and Stephen J. Boies* 203
Research Note: Reticle Color Preference as a Function of Luminance and Background, *Jeffrey D. Grossman* 215
Research Note: Subsidiary Task Techniques of Digit Generation and Digit Recall as Direct Measures of Operator Loading, *Lawrence R. Zeitlin and Jay M. Finkelman* 218
The Authors 221
Marijuana and Human Performance, *Gavriel Salvendy and George P. McCabe, Jr.* 229

Toward Measurement of Attention as a Function of Risk and Risk Preference in Man-Machine Systems, *Gordon H. Robinson* 236
Validation of a Laboratory Procedure for Simulating Critical Interval Overtaking, *Lewis W. Stone and Vernon S. Ellingstad* 243
Steering Reversals as a Measure of Driver Performance and Steering Task Difficulty, *John R. McLean and Errol R. Hoffman* 248
Inspection of Sheet Materials–Model and Data, *Colin G. Drury* 257
Relative Comprehensibility of Pictorial Information and Printed Words in Proceduralized Instructions, *Harold R. Booher* 266
The Analytic Profile System (APS) for Evaluating Visual Displays, *Arthur I. Siegel, M. A. Fischl, and Douglas Macpherson* 278
Cursor Positioning on an Electronic Display Using Lightpen, Lightgun, or Keyboard for Three Basic Tasks, *Nancy C. Goodwin* 289
Team Organization and Monitoring Performance, *Julian O. Morrissette, John P. Hornseth, and Kathy Shellar* 296
The Authors 301
Optimum Uses of Psychobiological, Sensorimotor, and Performance Measurement Strategies, *Earl A. Alluisi* 309
The Optimal-Pessimal Paradox, *James V. Bradley* 321
Biomechanical Analysis of the U.S. Navy Mark V and Mark XII Diving Systems, *Arthur R. Bachrach, Glen H. Egstrom, and Susan M. Blackmun* 328
Visual Time Compression: Spatial and Temporal Cues, *L. A. Scanlan* 337
Metallic Mercury Contamination of the Dental Operatory, *Richard G. Domey* 346
The Effect of Target Surround Density on Visual Search Performance, *Timothy H. Monk and Brian Brown* 356
Pacing, Product Complexity, and Task Perception in Simulated Inspection, *Leslie H. McFarling and Norman W. Heimstra* 361
Application of Fitts' Law to Foot-Pedal Design, *Colin G. Drury* 368
Motion Relationships in Aircraft Attitude and Guidance Displays: A Flight Experiment, *Stanley N. Roscoe and Robert C. Williges* 374
Aircraft Simulator Motion and the Order of Merit of Flight Attitude and Steering Guidance Displays, *Fuat Ince, Robert C. Williges, and Stanley N. Roscoe* 388
The Transition of Experienced Pilots to a Frequency-Separated Aircraft Attitude Display, *Dennis B. Beringer, Robert C. Williges, and Stanley N. Roscoe* 401
Research Note: Personal Characteristics and Whole Body Vibration, *Richard J. Wolf and Harry F. Martz, Jr.* 415
The Authors 417
Evaluation of Auditory, Visual and Dual-Mode Displays for Prolonged Sonar Monitoring in Repeated Sessions, *W. Peter Colquhoun* 425
The Application of Conductive Cooling To Human Operators, *Esar Shvartz* 438
Cognitive Efficiency of Divers Working in Cold Water, *Alan D. Baddeley, William J. Cuccaro, Glen H. Egstrom, Gershon Weltman, and Michael A. Willis* 446
Estimates of the Length of Highway Guidelines and Spaces, *David B. Harte* 455
The Effect of Screen Angle and Luminance On Microform Reading, *David R. Lee and James R. Buck* 461
Training Transfer Of A Formation Flight Trainer, *Gary B. Reid* 470
Human Factors in Romania, *Joseph L. Seminara* 477
The Influence of Motion and Audio Cues on Driver Performance in an Automobile Simulator, *Robert C. McLane and Walter W. Wierwille* 488

Information Seeking With Limitations on Available Information and Resources, *Jerrold M. Levine, Michael G. Samet, and Rae E. Brahlek* 502
An Experimental Study of Driver and Pedestrian Interaction During the Crossing Conflict, *Allan Katz, David Zaidel, and Alite Elgrishi* 514
The Authors 528
How Much Should You Pay For That Box?, *Charles O. Hopkins* 533
Review and Analysis of Color Coding Research For Visual Displays, *Richard E. Christ* ... 542
The Effects of Certain Gimbal Orders on Target Acquisition and Workload, *Dennis L. Price* 571
Comparison of Computer–Generated and Simulated Motion Picture Displays, in a Driving Simulation, *Walter W. Wierwille and Peter P. Fung* 577
Using Fingerprint Measures to Predict Other Anthropometric Variables, *Albert Zavala and James J. Paley* 591
ERRATUM: The Effect of Target Surround Density on Visual Search Performance, *Timothy H. Monk and Brian Brown* 603
The Authors, ... 604
Contents to Volume 17 607
Index to Volume 17 611

Human Factors Society

☐ SA_____
☐ SA_____
☐ SA_____

APPLICATION FOR STUDENT AFFILIATE MEMBERSHIP

The Student Affiliate grade of membership is available to anyone who is:

1. Enrolled as a full-time undergraduate or graduate student in an accredited college or university, and
2. Sponsored by one Member of the Human Factors Society in good standing.

Annual Dues for Student Affiliates are $13.00 for the period January — December and include subscriptions to the journal, Human Factors, and to the Bulletin. Student Affiliates are entitled to participate in all activities of the Society except that they may not vote nor hold office. Student Affiliate memberships are limited to a term of 5 years.

NAME

Mr.
Ms. _____
Last Name First Name Middle Initial

MAILING ADDRESS (Mail service for publications is often better to your home address. Your zip code must be included.)

_____
Number Street City State Zip Code Country

COLLEGE OR UNIVERSITY

_____
Name Location

Are you enrolled as a graduate or undergraduate student? ..... _____
What is your current academic load? ..... _____
What is a "full-time" load for your school? ..... _____
What is your major field of study? ..... _____
How many years have you been a Student Affiliate? ..... _____

SIGNATURE OF APPLICANT_____ **Date**_____

SPONSORING MEMBER'S ENDORSEMENT.

(The sponsor, who must be a Member of the Human Factors Society, recommends the applicant for membership as a Student Affiliate and certifies the validity of the above application.)

_____
Sponsor's Name (**Please Print**) Mailing Address

Sponsor's Signature_____ Date_____

Please send completed application with a check or money order for $13.00 payable to the Human Factors Society. Mail to Executive Secretary, Human Factors Society, P.O. Box 1369, Santa Monica, Calif. 90406.

SUBJECT INDEX

Accidents: see Safety
Analytic Profile System (APS), visual display evaluation 278
Anthropometry
  dynamic, and diving suit design 328
  foot pedal design 368
  prediction from fingerprints 591
  tracking during vibration 415
  urban transportation design 119
  workspace volume with scapular restriction 89
Attention
  measurement of operator capacity 218
  selective visual 236
Audition
  audio cues in an automobile simulator 488
  auditory vigilance display 106, 425
Automobile research: see Driver research
Aviation
  aircraft attitude and guidance displays 374, 388, 401
  fatigue and motion sickness 98
  pilot transition to frequency-separated display 401
  simulation in pilot training 533
  transfer of ground training 470
Bayes theorem, sequential decisionmaking 502
Biomechanics, joint movement in diving suits 328
Civil systems (special issue) 117
  highway transportation 165
  judicial testimony 172
  law enforcement 157, 591
  medical systems 132
  public transportation 149
  urban transportation system 119
  water treatment systems 139
Clothing, body cooling devices 438
Coding
  color for visual displays 542
  keyboard data entry 203
Color
  coding for visual displays 542
  sighting reticles 215
Communication
  flowcharts *vs.* printed instructions 183
  pictorial *vs.* printed instructions 266
Computers: see also Simulation
  cursor positioning devices 289
  fingerprint data acquisition system 591
  keyboard data entry 203
Control frequency, and control effort in tracking 248
Controls
  cursor positioning devices 289
  design and arrangement in locomotive cab 149
  foot pedals 368
  keyboards 203
Cooling, physiological effects 438
Coriolis acceleration, and nystagmic responses 98
Cost-effectiveness
  model of manpower strategies 42
  simulation in driver training 71
  simulation in pilot training 470, 533

Cursor positioning, keyboard, light pen, or light gun 289
Decisionmaking: see also Information processing
cost-risk tradeoffs in selective attention 236
driver, yield to pedestrians 514
inspection tasks 257
limited information and resources 502
link analysis in police intelligence 157
military intelligence rating scales 192
source credibility and inference 172
system design tradeoff studies 4
Design: see Equipment design; System design
Detection: see signal detection
Displays
aircraft attitude and guidance 374, 388, 401
background configuration and target surround 81
color coding 542
color of sighting reticles 215
computer-generated *vs.* simulated motion picture 577
cursor positioning 289
design and location in locomotive cab 149
evaluation of visual 278
gimbal order of sensor 571
screen angle and luminance of microform readers 461
target surround density 356
visual, auditory, and dual-mode vigilance 425
visual, in automobile simulator 488
visually time-compressed 337
Distance judgment, underestimates of drivers 455
Diver research: see Underwater research
Driver research: see also Highways
cost-risk tradeoffs in car-following 236
displays in driving simulation 577
distance judgments of drivers 455
evaluation of an open-loop simulator 71
Fitts' Law and foot-pedal design 368
motion and audio cues in simulation 488
part-task simulator for car-passing 243
pedestrian safety 514
sex differences in driving behavior 165
shoulder harness and workspace volume 89
steering reversal rates 248
workload measurement 218
Drugs, marijuana and psychomotor skills 229
Education: see Training
Environment: see also Aviation; Illumination
airborne bacteria during surgery 132
cold water diving 446
conductive cooling of human operators 438
exposure to carbon monoxide 309
exposure to inorganic lead 309
metallic mercury contamination 346
motion in an automobile simulator 488
quality in locomotive cab 149
urban transportation system, vibration 119, 415
water quality acceptability ratings 139
Equipment design: see also Highways; System design
aircraft attitude displays 374, 388, 401
automobile simulator 488
automobile simulator displays 577
body cooling devices 438
cursor positioning devices 289
diesel-electric locomotive cab 149
foot pedals 368
gimbal order for sensor attachment 571
hard-hat diving suits 328
microform readers 461
sighting reticles for weapon systems 215
surgical environmental system 132
Ergonomics, in Romania 477
Expected loss ratio 502
Eye movements
following coriolis acceleration 98
using microform readers 461

Fatigue: see also Stress
tracking during vibration 415
vestibulo-ocular responses 98
Fingerprints, predict anthropometric characteristics 591
Forced-choice technique, evaluation of visual displays 278
Gimbal order, target acquisition and workload 571
Handicapped, urban transportation design 119
Hearing: see Audition
Heat: see Stress
Highways: see also Driver research
lane width and steering reversals 248
length of guidelines and spaces 455
pedestrian crossings 514
sex differences in driver behavior 165
Human factors, in Romania 477
Human information processing: see Information processing
Human performance
data storage and retrieval system 25
impact of system design on 13
Human resources (special issue) 2
correlation model 13
information processing system 25
in system design 4
manpower costs model 42
technological change 52
training and recruitment planning model 35
Illumination
microform readers 461
search time in inspection 257
sighting reticles 215
Information processing: see also Decisionmaking
comprehensibility of instructions 183, 266
human resources data system 25
keyboard data entry 203
limited information and resources 502
link analysis in police intelligence 157
military intelligence rating scales 192
probabilistic inference 172
risks and costs in selective attention 236
Inspection: see also Signal detection; Vigilance
model to predict performance 257
pacing and product complexity 361
Instructions
pictorial *vs.* printed 266
printed *vs.* flowcharts 183
Judicial system, legal testimony 172
Lighting: see Illumination
Link analysis, police intelligence 157
Literature review, color coding of visual displays 542
Maintainability, detection of defective elements 361
Management systems
costs of manpower strategies 42
prediction of skill and manpower requirements 52
training and recruitment forecasting model 35
Manpower Planning Quotas (MPQ) model, forecasting training and recruitment quotas 35
Measurement
eye movements 461
military intelligence rating scales 192
selection of a dependent variable 309
time-score distributions and parametric statistics 321
water quality acceptance 139
workspace volume 89
Measurement (Body): see Anthropometry
Medical systems
mercury in dental operatories 346
surgical environmental system 132
Memory
cold water diving 446
pictorial *vs.* printed inputs 266
Methodology
link analysis 157
skewness and parametric statistics 321
survey research 25
system design tradeoff study 4
visual display evaluation 278

Military intelligence, rating scales 192
Model: see also Theory
evaluative costs of manpower strategies 42
forecast skill and manpower requirements 52
human resources correlational 13
manpower planning quotas model 35
predict inspector performance 257
risk-cost tradeoffs in selective attention 236
SR-within-0 (Co-occurrence Model) 309
Monitoring: see Vigilance
Motion
aircraft simulator and display evaluation 374, 388
automobile simulator 488, 577
coherent, time-compressed displays 337
Motion sickness, effects on vestibular-ocular responses 98
Motivation
aircraft simulator fidelity 533
effect on tracking during vibration 415
pacing in inspection tasks 361
Motor skills: see also Aviation; Driver research; Tracking
sex differences in driving 165
typing keystroke rate 203
Noise
background configuration and visual search time 81
target surround density and visual search time 356
Organizational planning, human resources in 2
Pacing, inspection tasks 361
Pattern recognition, time-compressed displays 337
Personnel selection
pilot, simulation in 533
quota prediction 35
training cost tradeoffs 42
Physiology
cold water diving 446
conductive cooling of human operators 438
marijuana and motor skills 229
Prediction equations, anthropometric characteristics from fingerprints 591
Psychomotor skills: see Motor skills
Quality assurance: see Inspection
Rating scales, military intelligence 192
Residual capacity, measure of operator workload 218
Response stereotypes, experienced pilots 401
Risks, and costs in selective attention 236
Romania, human factors in 477
Safety
distance judgments of drivers 455
diving suit design 328
mercury in dental operatories 346
occupational 309
pedestrian 514
sex differences in driving behavior 165
simulation of critical interval car-passing 243
urban transportation 119
Scanning: see Visual search
Secondary task, digit generation and digit recall 218
Selection: see Personnel selection
Signal detection: see also Inspection
background configuration 81
color coding visual displays 542
gimbal order of sensor 571
target surround density 356
task difficulty and stress 106
time-compressed displays 337
with two-man teams 296
Signal detection theory: see Theory
Simulation: see also Computers
automobile motion and display fidelity 577
critical interval car-passing 243
fidelity and evaluation of aircraft displays 388
formation flight training 470
manpower quota forecasting 35

manpower strategy cost tradeoffs 42
motion and audio cues in an automobile simulator 488
open-loop driving simulator 71
pilot training 533
risk-cost model for selective attention 236
sex differences in driver behavior 165
system dynamics 52
Skill level, skewness of time-score distributions 321
Sleep deprivation: see Fatigue
Social facilitation, team performance 296
Special issues
civil systems 117
human resources 2
